

CLEANSKIN -K Technical Data Sheet

Product Code	C3
Current Edition	January 2024
Summary	Cleanskin - K is a gold-white, free-flowing, homogeneous mixture of particulate solids comprising potassium carbonate, per-carbonate, chelating and sequestering agents, food grade and environmentally enhanced poly-surfactant, rinse aid.
Recommended Use	As a surface cleaning agent, mixed in either ambient or hot water (15 – 60°C) at a dose rate of 1 – 2% of water volume. Applied as an aqueous solution in a circulatory pressure spray-washing system (CIP) to remove wine tartar residues, fresh protein, wine or fruit surface colour and all other organic acid and other soils from stainless steel and associated hard surfaces.
Hazard Classification	This material is hazardous according to GHS and Safe Work Australia. UN Code: Not required HAZARDOUS SUBSTANCE: IRRITANT
	
Signal Word	WARNING
Hazard Statements	H290 May be corrosive to soft metal in a surface soaking protocol H303 May be harmful if swallowed H316 May cause mild skin irritation H320 Causes eye irritation H335 May cause respiratory irritation
Precautionary Statements	P102 Keep out of the reach of children P233 Keep the container firmly closed at all times when not in use P234 Keep only in the original container P264 Wash hands thoroughly after handling P270 Do not eat or drink when handling this product P280 Use personal, protective equipment as recommended P310 If exposed, immediately call a medical doctor/physician P403 Store in a cool, dry place at all times P410 Protect from sunlight and hot conditions
Properties	Physical state Granular powder Colour Gold– white Odour Slight – saline Solubility in water Approx. 95 – 105g/L @20°C Specific Gravity Approx. 1.05 Particle size Range 0.05 – 1.10 mm Flash Point (°C) Non Flammable particulate solid pH range 11.0 – 11.3 (1% w/v aqueous soln.)
Packaging	Please refer to your local supplier for available pack type and size.
