

TANNIN FT BLANC SOFT

TANNINS

Hydrolysable tannin (Gall nut).

↓ OENOLOGICAL APPLICATIONS

TANNIN FT BLANC SOFT reinforces the antioxidant properties of sulphur dioxide and adds to its antiseptic effect.

Due to its composition and extreme finesse, it does not add astringency to white wines.

In addition, it gives them greater structure and ageing capacity.

↓ INSTRUCTIONS FOR USE

Dissolve the **TANNIN FT BLANC SOFT** in ten times its weight of hot water. Add the solution obtained to the wine during pumping-over or by using a fining connection.

↓ DOSE RATE

- In powder form: 1 to 5 g/hL

N B : these dosages are given for guidance only. You should always have a test carried out in the laboratory beforehand.
