

**SECTION 1: Identification of the mixture and the company**

**1.1. Product Identifier**

**Product name:** SCOTTZYME BG

**Synonyms:** Powder enzymatic preparation (enzymatic protein)

**1.2. Relevant identified uses of the mixture and uses advised against**

**Use:** Biocatalyst for industry.

**1.3. Details of the supplier of the safety datasheet**

**Company:** Soufflet Biotechnologies SAS - ZAC Normandial – 14460 COLOMBELLES  
France – Tél : +33 (0)2 31 35 05 30

**Telephone n°**

+33 (0)2 31 35 05 30 (working hours)

**Manager's email:** fguillamin@soufflet.com

**1.4. Emergency telephone number**

In France: contact ORFILA (INRS) +33 (0)1 45 42 59 59 (24/7)

This number will give the contact details of all French poison centres which provide free medical help (excluding call cost).

**SECTION 2: Hazards identification**

**2.1. Classification of the mixture according to Regulation (EC) No 1272/2008**

**Classification:** Resp. Sens. Cat 1

**2.2 Label elements according to Regulation (EC) No 1272/2008**

**Signal word:** Danger

**Hazard pictogram:**

**Hazard statements:** H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.

**Precautionary statements:**

P261 - Avoid breathing dust/fume/gas/mist/vapours/spray.

P284 - In case of inadequate ventilation wear respiratory protection.

P304 + 340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P342 + 311 - If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

### 2.3. Other hazards

The mixture is not considered as a PBT or VPVB substance.

## SECTION 3: Composition/Information on ingredients

### 3.1. Substance: not applicable

### 3.2. Mixture:

#### Dangerous ingredients

Chemical name	CAS N°	CE N°	IUB N°	%	CLP Classification (Reg. 1272/2008)
Polygalacturonase	9032-75-1	232-885-6	3.2.1.15	20 - 30%	Resp. Sens. 1 ; H334

*The other ingredients are not listed as they have no impact on the classification of the substance.*

For the full text of the H phrases mentioned in this section, see section 16.

## SECTION 4: First aid measures

### 4.1. Description of the first aid measures

<b>General information:</b>	Protection of rescue workers: Wear appropriate individual protective equipment (see Section 8). Transport the affected person into the open air. Remove contaminated shoes and clothing.
<b>Inhalation:</b>	In the event of inhalation, take into the open air. Do not allow the person to get cold. Keep the victim resting in a semi-seated position. In the absence of breathing, use artificial respiration. Consult a doctor.
<b>Ingestion:</b>	In the event of ingestion, rinse the mouth with water (only if the person is conscious). Consult a doctor if symptoms develop.
<b>Contact with the skin:</b>	Rinse thoroughly in running water. Remove contaminated shoes and clothing. Consult a doctor if symptoms develop.
<b>Contact with the eyes:</b>	Rinse thoroughly in running water. Consult a doctor if symptoms develop.
<b>First aid facilities:</b>	Ensure that automatic eye baths and safety showers are located close to the workstations.

### 4.2. Most important symptoms and effects, both acute and delayed

<b>Inhalation:</b>	Inhalation of drops or spray may cause irritation to the respiratory system. May entail sensitisation via inhalation. Sensitive people may develop asthma following inhalation of this substance.
<b>Ingestion:</b>	Ingestion of the product may entail gastrointestinal problems.
<b>Contact with the skin:</b>	Prolonged or repeated contact with the skin may cause irritation.
<b>Contact with the eyes:</b>	May cause irritation of the eyes (redness).

#### 4.3. indication of any immediate medical attention and special treatment needed

No specific treatment.

### SECTION 5: Firefighting Measures

#### 5.1. Extinguishing media

**Small fire:** Use chemical powders or carbonic gas.

**Major fire:** Use appropriate extinguishers for the surrounding materials.

#### 5.2. Special hazards arising from the mixture

##### *Unusual risks of fire/explosion*

No risk identified in the current state of knowledge.

##### *Risk linked to the products of thermal breakdown*

In the event of fire, may cause toxic and/or corrosive breakdown products.

#### 5.3. Advice for firefighters

##### *Special measures to combat fire*

Water from the fire-fighting system that has been contaminated by this product must be kept in a closed environment and must not be spilt into the aquatic environment or any drain or evacuation pipe

##### *Protection of participants*

Wear appropriate protective clothing. Stand-alone isolating respiratory protection.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with eyes, skin and clothing. Use appropriate protective equipment (see Section 8). Consult a specialist immediately.

#### 6.2. Environmental precautions

No special measure is required.

#### 6.3. Methods and material for containment and cleaning up

**Small accidental spillage or leak:** Avoid the formation of dust or spray. Mop up with appropriate material. Place in an appropriate container. Clean the area affected with plenty of water.

**Large accidental spillage or leak:** Avoid the formation of dust or spray. Prevent spillage into the drains, subsoil or confined areas. Contain if necessary. Mop up the product spilled with inert material (e.g. dry sand or dry earth) and place in a chemical waste container. Recycle if possible.

#### 6.4. Reference to other sections

See section 8 for individual protective equipment and section 13 for waste disposal.

### SECTION 7: Handling and Storage

#### 7.1. Precautions for safe handling

Use in a closed circuit if possible. Use with adequate ventilation. Use appropriate protective equipment. Avoid any contact with the eyes, skin, respiratory system and clothing.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in a clean, dry place.

#### 7.3. Specific end use(s)

Substance intended to catalyse reactions by enzymatic means during industrial processes.

## Section 8: Exposure controls/Personal protection

### 8.1. Control parameters

#### *Limits of professional exposure*

**Technical measures:** Use only in a well-ventilated environment.

**Hygiene measures:** Do not eat, drink or smoke during use. Wash your hands after handling these compounds and before eating, smoking or going to the toilet, and at the end of the day.

### 8.2. Exposure controls

#### *Individual protective equipment*

**Respiratory system:** Wear a P3 dust mask.

**Skin and body:** Wear appropriate protective clothing.

**Eyes:** Full mask.

**Hands:** Wear appropriate gloves.

#### *Control of exposure linked to protection of the environment*

Notify the local authorities if significant leaks cannot be contained.

Wastewater must be evacuated to a purification plant.

The advice on personal protection is valid for high levels of exposure. Adapt personal protection according to the risk of exposure.

## SECTION 9: Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

**Physical state:** Powder.

**Colour:** Beige

**Odour:** Slight odour of fermentation.

**pH:** 4 to 6 (concentration 1%).

**Solubility:** Soluble in water.

**Melting/freezing point, olfactory threshold, initial boiling point and boiling interval, flashpoint, evaporation rate, flammability (solid, gas), steam pressure, steam density, partition coefficient (n-octanol/eau), temperature of breakdown, temperature of auto-flammability, viscosity, explosive properties, oxidising properties:** Data not relevant

**9.2. Other information** No information available.

## SECTION 10: Stability and Reactivity

**10.1. Reactivity:** Not relevant.

**10.2. Chemical stability:** Stable under the recommended storage conditions.

**10.3. Possibility of hazardous reactions:** N/A under normal conditions of use.

**10.4. Conditions to avoid:** See sections 5 and 7.

**10.5. Incompatible materials:** No special recommendations.

**10.6. Hazardous decomposition products:** Does not break down under the stipulated conditions of handling and storage (see section 7)

## SECTION 11: Toxicological Information

### 11.1. Information on toxicological effects

#### *Potential acute effects on the health*

<b>Inhalation:</b>	May entail sensitisation via inhalation.
<b>Ingestion:</b>	No information available.
<b>Contact with the skin:</b>	No information available.
<b>Contact with the eyes:</b>	No information available.

*Acute toxicity:* No information available.

*Irritation/Corrosion* No information available.

*Sensitisation* No information available.

#### *Potential chronic effects on the health*

<b>Chronic effects:</b>	Once sensitised, a strong allergic reaction may be triggered upon later exposure to very low levels.
<b>Carcinogenicity:</b>	No information available.
<b>Mutagenicity:</b>	No information available.
<b>Teratogenicity:</b>	No information available.
<b>Effects on development:</b>	No information available.
<b>Effects on fertility:</b>	No information available.

*Chronic toxicity:* No information available.

*Carcinogenicity:* No information available.

*Mutagenicity:* No information available.

*Teratogenicity:* No information available.

*Toxicity for reproduction:* No information available.

## SECTION 12: Ecological Information

### 12.1. Toxicity

**Effects on the environment:** No information available.

**Eco-toxicity in the aquatic environment:** No information available.

**12.2. Persistence/degradability:** No information available.

**12.3. Bio accumulative potential** No information available.

**12.4. Mobility in soil:** For data on the physical state and solubility, see section 9

**12.5. Results of PBT and vPvB assessment** See section 2.3.

**12.6. Other harmful effects:** No information available.

**Comments:** The preparation is considered as non-hazardous for the environment, mobility, persistence, degradability, bioaccumulation potential, toxicity in the aquatic environment and other data relative to eco-toxicity.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Dispose of waste in compliance with national/local environmental protection rules.

Wastewater must be evacuated to a purification plant.

The waste code must be allocated by the user according to the application of the product.

## SECTION 14: Transport information

14.1 UN number	Not regulated
14.2 Un proper shipping name	Not applicable
14.3 Transport hazard class	Not applicable
14.4 Packing group	Not applicable
14.5 Environmental hazards	No
14.6 Special precautions for user	Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 transport in bulk according to Annex II of MARPOL 73/8 and the IBC Code: not available

### *European legislation for international transport*

**ADR/RID:** not applicable.      **IMDG:** not applicable.  
**ADNR:** not applicable.      **IATA:** not applicable.

## SECTION 15: Regulatory Information

### **15.1. Safety, health and environmental regulations/legislation specific to the mixture**

The substance mixture complies with article 16 of the regulation n°689/2008 on the export and import of hazardous chemical products.

### **15.2. Chemical safety assessment**

The substance has not been subject to an evaluation of chemical safety.

## SECTION 16: Other information

### *Text of the H phrase mentioned in sections 2 and 3*

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.

### *Additional information*

The format of this safety datasheet complies with regulation CE/453/2010.

A REACH registration number may be allocated to enzymes depending on their possible technical applications. Enzymes used as processing aids for the “food” or “feed” products are exempt from REACH registration, including the establishment of scenarios of exposure. The legislation in force applicable to these areas must be taken into account.

### *Disclaimer*

The information contained in this safety datasheet is considered as true and accurate on the date of publication. However, the precision and exhaustiveness of this information, and any recommendation or suggestion, are given without guarantee. As the conditions of use are outside of the control of our company, it is down to the user to determine the conditions of safe use of this product. The information contained in this datasheet does not represent analytical specifications; for these specifications see our technical datasheet.

Reason for revision: the whole datasheet has been revised to ensure conformity with regulation 453/2010.
