

# SOLUTION ST

## TANNINS

*Composition:*.....hydrolysable gallic tannin in solution with  
.....copper sulfate and stabilized with SO<sub>2</sub>

---

*Aspect:*..... liquid

*Color:*..... dark brown

---

*Tannin concentration (used):* ..... > 100 g/L

*Dry matter:* ..... 9,6 – 10,4 g/L

*Density:*..... 1,037 – 1,047

*Copper sulfate concentration:*..... 4,5 – 5,0 g/L

*Copper concentration (from the copper sulfate) :*..... 1,15 – 1,30 g/L

*SO<sub>2</sub> concentration:* ..... < 0,2 %

*Total polyphenols content of the initial product:* ..... ≥ 65 %
